

Your 2023 Tuition Roadmap

Got a tuition budget, but not sure how best to use it? With exams on the horizon, we've created the ultimate 2023 Tuition Roadmap to show you how you could map out your tutoring schedule in the run up to exams to deliver the ultimate boost to grades and confidence (and to make sure you use all of your NTP!).

Jan to May: Core

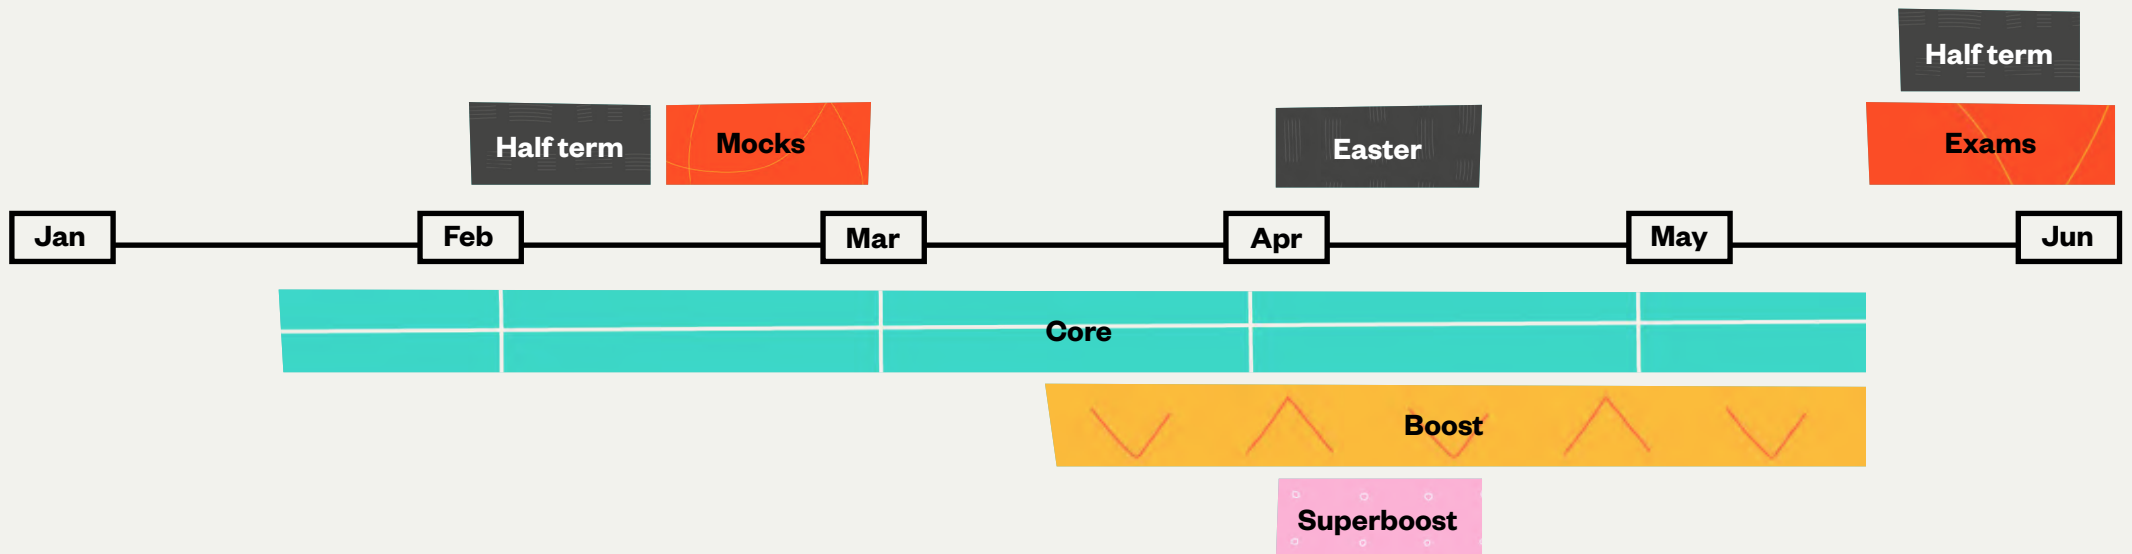

- Weekly tuition all the way up to exams
- Use Mock results to identify areas of improvement
- Individualised, confidence-boosting support

Mid-March to May: Boost

- For those who need targeted support
- Tutoring sessions 2x weekly through to exams
- Tackle tricky topics and revision techniques

Easter Holidays: Superboost

- Keep brains in gear over the holidays
- Help with revision and individual focus areas
- Intensive support for engaged students

MyTutor programmes explained further

MyTutor Core

Our most popular programme, designed to deliver consistent, weekly tuition to your students, across different subjects and year groups. If you're looking for consistent, year-round sessions to build a strong foundation in those tricky subjects and boost confidence, this is the package for you. Your students receive one 55-minute lesson per week for 12 weeks in small groups (3:1) or individually (1:1).

MyTutor Boost

Got resits, mocks, or exams just around the corner, and need a programme that delivers impact in less time? MyTutor Boost does what it says in the tin, offering a term's worth of personalised tuition in just 6 weeks, with your students receiving 2 sessions per week in a 3:1 or 1:1 setup.

MyTutor Superboost

A high-intensity programme that gives great results, outside of term time - MyTutor Superboost is a package of 10-12 sessions, delivered in just one or two weeks, slotting perfectly into school breaks. It's particularly effective to give your high-achieving students the boost they need, helping them prepare for exams during half-terms, Easter and summer holidays.

Getting started

If you'd like to learn more or get going with a programme, get in touch with our friendly partnerships team. Our programmes are easily scalable, and we can get your school up and running in just 3 weeks.
